Koh Lanta, August 14, 2010

**Volunteer Vets. / Vet students / Vet nurses at Lanta Animal Welfare,
- Needed urgently and also in the future !
On the beautiful Koh Lanta Island in Southern Thailand**

Location:

Koh Lanta in southern Thailand, near Krabi and Phuket is a lovely island which has managed to maintain its very own personality and special qualities despite the fact that more and more people have discovered the island's attractions during the past few years. This is a place where you can unwind and enjoy the relaxed atmosphere, the good (and cheap) food and the beautiful beaches. On Lanta there is still no sight of the hectic commercialism that most tourist places around the world seem to think is what all holiday makers crave. Great scuba diving too!
The center is located Pra-Ae, Long Beach.

Center opening hours:

Monday to Friday: 8am to 6pm - Saturday: 8am to 1pm

The clinic is usually closed to the public on Tuesdays and Thursdays due to our efforts to catch stray animals over these 2 days (we are of course open for emergencies).

Qualities required:

Love for animals, good social and communication skills to deal with pets owners, volunteers and local communities, being able to work in team as well as independently, hard worker, basic English language knowledge essential, initiatives, being able to improvise in difficult or uncommon situations. Willing to perform Euthanization if the quality of the animal's life means suffering or they show extreme aggressive behavior and are a threat to surroundings.

Job description: (depending on experience)

- performing surgery (especially neutering and spaying)
- giving medical care to all animals and advise to pet owners on different subjects such as diet, general care, Benefits of sterilization...
- managing drugs and medicine stock (take ordering, find suppliers and good prices,...)
- managing medical equipment (ordering new ones when necessary, sterilizing, preparing sterilization sets,...)
- working with volunteer vets and vet nurses (showing them procedures, introducing them to the drugs we're using,...)
- help organizing education programs for local schools about animal care in general, why we are here and what we do.
- help catching dogs (drug's dosage, how to use the blow pipe) if possible

Benefits:

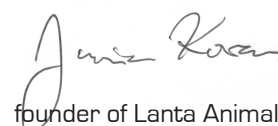

- Free room at the animal center. - if you stay for 1 month
- Free Thai cooking class at Time For Lime - if you stay for 1 month
- Staff price for drinks & cocktails, 20% off for great food, both at Time For Lime
